INNOvations in BUILDing Decarbonization and Energy Systems INNOBuild2026

organized by **Bialystok University of Technology**

ABOUT

INNOBUILD 2026 will bring together researchers, practitioners, and industry experts to explore innovative solutions for transforming the built environment - from energy systems and retrofitting technologies to integrated design strategies that promote sustainability, comfort, and health. The conference will provide an excellent platform for exchanging knowledge, sharing best practices, and fostering collaboration across disciplines related to architecture, building engineering, environmental design, and energy management. We particularly encourage the participation of young researchers and professionals interested in shaping the future of sustainable buildings and resilient cities. We look forward to welcoming you to **INNOBUILD 2026** - to present your research results and join a growing community dedicated to creating buildings that are not only energy-efficient, but also comfortable and healthy places to live and work.

MAIN TOPICS

- HVAC systems, Thermal Comfort & Indoor Air Quality
- Building Energy Performance
- Renewable Energy Integration & Smart Systems
- Retrofitting & Decarbonization Strategies
- Sustainable Architecture & Green Infrastructure
- Sustainable Materials & Circular Economy
- Policy, Standards & Societal Perspectives

PUBLICATION

- **ABSTRACT**
 A one-page abstract after its acceptance will be published in the Conference Proceedings in electronic version.

FULL PAPERS

MONOGRAPH
 Accepted full papers will be published in MONOGRAPH (with ISBN and DOI) by Publishing House of Bialystok University of Technology and available in the open access.

JOURNAL

Alternatively, the papers may be published, after passing the additional review procedure, in the following scored journals (in same cases additional fee will be required):

- Environment and Economics, IF (2023): 1.0
- Energies, IF (2024): 3.2
- Sustainability, IF (2024): 3.3
- Modern Engineering, Safety & Defense
- Polish journals: COW, INSTAL; Rynek Instalacyjny etc.
